Orbit AI Growth OS

5 users ka safar: har kadam par user kya karta hai, OS kya sochta hai, kya karta hai, aur business ko profitable scale tak kaise le jata hai

Har user alag hai: kaam, shehar, plan, tech ki samajh aur masla. Har ek ke liye din 0 (signup) se mahina 12 tak ka safar hai. Har mod par teen cheezein: **user kya karta ya dekhta hai**, **OS andar kya sochta hai**, aur **OS backend mein kya karta hai**. Aakhir mein har business ka mahina-dar-mahina munafe ka hisaab hai.

Zaroori: *saare numbers (orders, keemat, kharcha, munafa) sirf* **misaal** *hain, taake flow samajh aaye. Ye prediction ya guarantee nahi.*

Nishan	Matlab
[Orbit]	Orbit khud karta hai (agent + tool)
[Seller]	User ko khud karna hai (insaani kaam ya approval)
[Jev]	Jev faisla karta hai (chunna, route, haan/nahi, score)
[Claude]	Claude sochta ya likhta hai
[Code]	Seedha code: numbers, hisaab, database
[Mumkin nahi]	Orbit abhi nahi kar sakta, plan mein pehle hi bataya jata hai

OS ka dimagh: har faisle se pehle kya sochta hai

Har user ke liye OS ka Orchestrator yahi silsila chalata hai. Ye kabhi rukta nahi, sirf user ki approval par aage badhta hai.

1. **Dekhna: [Code]** asli numbers laata hai: orders, visitors, conversion, margin, returns, repeat, ads ka kharcha. **[Jev]** sirf kaam ke hisse chunta hai.
2. **Asal rukawat pehchanna: [Claude]** poochta hai 'is waqt business ko sab se zyada kya rok raha hai?'. Log nahi aate? Aate hain par khareedte nahi? Khareedte hain par parcel wapas aata hai? Ek dafa aate hain, dobara nahi? Munafa nahi bachta?
3. **Munafe ki jaanch (profit guard): [Code]** har product ka asli munafa per order nikalta hai: price minus cost, delivery, returns ka nuqsan, ad ka kharcha, payment fee. Jo strategy sales badhaye lekin munafa khaye, wo plan mein nahi aati, ya saaf warning ke saath aati hai.
4. **Ideas: [Claude]** us rukawat ke liye alag alag qism ki strategies sochta hai. Seller ka business buniyad hai, competitors sirf knowledge. Memory aur doosre stores ki seekh bhi dekhta hai.
5. **Had ki jaanch:** seller ki capacity (kitna bana sakta hai, kitna waqt hai), budget, aur Orbit ke tools. Har kadam: Orbit / Seller / Mumkin nahi.
6. **Behes:** seller ke saath baat. Galat idea ko wajah ke saath 'galat' kehna. Zaroorat ho to agents se meeting.
7. **Approval, phir kaam, phir naapna, phir dobara baat.** Jo chale wo bada, jo na chale wo band.
8. **Agla level:** rukawat hal hui to OS agli rukawat dhoondhta hai. Business ek ek rukawat khol kar bada hota hai.

Business ki stage	Aam rukawat	OS ka focus
0 se pehle 50 customers	Koi jaanta nahi, bharosa nahi	Network, word-of-mouth, reviews, social proof
50 se 500 orders	Traffic hai par conversion ya returns kharab	Checkout, bharosa, COD confirm, offer, AOV
500+ orders	Ek dafa ke customer, ads mehnge	Loyalty, repeat, referral, subscription, apna audience
Bada business	Munafa patla, operations bhaari	Har product ka munafa, stock, courier, B2B, team

User 1: Sana | Sana's Bakes (Lahore)

Cheez	Tafseel
Kaam	Ghar se brownies aur cookies ke boxes. Sirf Lahore mein delivery (taaza cheez).
Shuru ki haalat	Instagram par 800 followers, DMs se mahine ke ~8 orders, koi website ya system nahi.
Tech	Sirf mobile, tech ka zyada tajurba nahi.
Plan	Starter ($50 mahina, ~Rs 14,000).
Had	Hafte mein zyada se zyada 40 boxes bana sakti hai.
Goal	Ghar se munafe wala business: mahine ka Rs 1.5 lakh munafa.
Misaal numbers	Box Rs 2,500, banane ki laagat Rs 1,100, delivery Rs 250.

Din 0: Signup aur onboarding

User kya karta / dekhta hai	OS kya sochta hai (andar)	OS kya karta hai (backend)
Phone par signup. 'Website hai?' par 'nahi' dabati hai. Instagram handle deti hai.	*Website nahi, Instagram hai. User mobile par hai, sab kuch chhota aur saada rakho.*	**[Orbit]** Instagram profile parhta hai (bio, posts). **[Claude]** niche nikalta hai: 'homemade brownies, Lahore'.
4 products ki tasveer upload karti hai, price aur laagat daalti hai.	*Laagat mili, ab har box ka munafa nikal sakta hoon.*	**[Code]** munafa per box: 2,500 - 1,100 - 250 = Rs 1,150 (46%).
Sawal: 'Kahan tak delivery?' → Lahore. 'Hafte mein kitne bana sakti hain?' → 40.	*Capacity 40 hai. Plan kabhi 40 se zyada ka nahi banega. Demand zyada hui to waitlist ya pre-order.*	**[Orbit]** business profile mein capacity aur delivery area save.
WhatsApp number deti hai. Instagram connect karti hai (Meta).	*Instagram par khud post karna abhi Meta App Review ke baad hi hoga.*	**[Orbit]** connections save. Instagram posting ko 'Seller karega' mark karta hai jab tak review na ho.

Din 0: Store banana (Orbit Design)

User kya karta / dekhta hai	OS kya sochta hai (andar)	OS kya karta hai (backend)
Likhti hai: 'cozy bakery, pink aur cream, ghar jaisa feel'.	*Brief short hai, kuch sawal pooch lo: logo? delivery din? occasions?*	**[Claude]** 3 chhote sawal. Jawab ke baad planStore → pages build, visual review.
Preview dekhti hai, hero ka text badalti hai. Publish dabati hai.	*Bakery ke liye delivery ka din zaroori hai, checkout mein chahiye.*	**[Orbit]** Store agent checkout mein 'Delivery ka din' field jodta hai. Delivery sirf Lahore zone.

Din 1: Draft plan aur brainstorming

User kya karta / dekhta hai	OS kya sochta hai (andar)	OS kya karta hai (backend)
Dashboard par 'Aapka pehla plan taiyar hai' dekhti hai.	*Rukawat: koi jaanta nahi, aur banane ki had 40. Scarcity yahan faida hai, nuqsan nahi.*	**[Claude]** 4 strategies banata hai. **[Code]** har ek ka munafa check.
Strategy A: 'Friday Drop'. Har Friday 40 boxes ka limited batch, Wednesday ko announce.	*Had ko taqat banao: 'jaldi karo, khatam ho jayega'.*	Kaam: **[Orbit]** har hafte stock 40 set, announcement caption. **[Seller]** Instagram par post.
Strategy B: 5 offices ko free tasting box.	*Office = ek order mein 6-10 boxes. Ek box ka kharcha Rs 1,350.*	**[Orbit]** Lahore ke offices ke liye message aur card design. **[Seller]** khud jaa kar deti hai.
Strategy C: birthday box par customer ka naam.	*Occasion wale pehle se order karte hain, capacity plan hoti hai.*	**[Orbit]** checkout mein 'box par naam' field + 3 din pehle order ki shart.

User kya karta / dekhta hai	OS kya sochta hai (andar)	OS kya karta hai (backend)
Strategy D: purane 8 DM customers ko WhatsApp list mein laana.	*Sab se sasta: jo pehle khareed chuke.*	**[Claude]** opt-in message. **[Seller]** bhejti hai. **[Orbit]** list banata hai.
Likhti hai: '30% discount do, zyada bikega'.	*30% se munafa 46% se 16% par. Aur capacity pehle hi 40 hai, zyada orders sambhal nahi sakti.*	**[Jev]** Pricing agent ki raaye zaroori. **[Code]** hisaab. **[Claude]** jawab: 'nahi, scarcity behtar'.
Maan jaati hai. 'Chalao' dabati hai.		Plan 'active'. Har strategy ka paimana set: orders, office orders, occasion orders.

Hafta 1 se 2: Chalna

User kya karta / dekhta hai	OS kya sochta hai (andar)	OS kya karta hai (backend)
Wednesday ko notification: 'Friday Drop ka post taiyar hai'. Copy karke Instagram par daalti hai.		**[Claude]** caption + story text. **[Code]** 40 ka stock set.
Orders aane lagte hain, phone par alert.	*COD hai, pakka karna zaroori (taaza cheez wapas nahi aa sakti).*	**[Orbit]** WhatsApp confirm. **[Jev]** 'ji zaroor' ko confirm samajhta hai.
Thursday: 'stock khatam' ka alert.	*Demand capacity se zyada. Waitlist kholo, agle Friday pehla haq.*	**[Orbit]** store par 'Sold out, waitlist join karein'. Waitlist ki list save.
Offices mein boxes deti hai.		**[Orbit]** har office ka alag coupon code, taake order gina ja sake.

Hafta 2: Pehla review

User kya karta / dekhta hai	OS kya sochta hai (andar)	OS kya karta hai (backend)
Notification: 'Plan review: 5 minute?'	*Data: Friday Drop 2 din mein sold out. 2 offices ne group order diya. Occasion 3 orders.*	**[Code]** numbers. **[Claude]** khulasa + raaye.
OS kehta hai: 'Demand zyada hai. Price Rs 2,500 se 2,750 karke test karein?'	*Sold out 2 din mein matlab price kam hai. 10% badhane se munafa per box 1,150 se 1,400.*	**[Code]** price elasticity ka test plan: 2 hafte.
Sana: 'log naraaz honge'. OS: 'waitlist walon ko purani price, naye logon ko nayi. 2 hafte mein dekh lete hain.'	*Seller ka dar jaiz hai, test chhota rakho.*	Plan update, seller approval.

Mahina 3 se 12: Scale

User kya karta / dekhta hai	OS kya sochta hai (andar)	OS kya karta hai (backend)
Mahina 3: har Friday sold out, waitlist 90 log.	*Rukawat ab capacity hai, demand nahi.*	**[Code]** helper rakhne ka hisaab: helper Rs 35,000, capacity 40 se 70 → munafa badhta hai.
OS kehta hai: 'ek helper ya bada oven? helper ka hisaab ye hai.'	*Insaan rakhna seller ka kaam hai.*	**[Mumkin nahi]** Orbit hiring nahi karta. Sirf hisaab aur job post ka text.
Mahina 5: Eid ke corporate boxes.	*Offices ne pehle order kiya tha, un se shuru.*	**[Orbit]** corporate page + inquiry form. **[Jev]** inquiry ko 'corporate' samajh kar alert.
Mahina 9: 'shehar se bahar bhi bechein?'	*Brownies courier mein kharab ho sakti hain. Jar cookies (lambi shelf life) test karo.*	**[Orbit]** naya product page, 2 shehron mein chhota test.

Mahina (misaal)	Orders	Revenue	Laagat + delivery	Helper + Orbit	Munafa
Pehle (Orbit se pehle)	8	Rs 20,000	Rs 10,800	0	Rs 9,200
Mahina 1	60	Rs 1,50,000	Rs 81,000	Rs 14,000	Rs 55,000
Mahina 3	130	Rs 3,57,500	Rs 1,75,500	Rs 14,000	Rs 1,68,000
Mahina 6	260	Rs 7,15,000	Rs 3,51,000	Rs 49,000	Rs 3,15,000
Mahina 12	380	Rs 10,45,000	Rs 5,13,000	Rs 84,000	Rs 4,48,000

Mahina 3 ke baad price Rs 2,750. Mahina 6 se ek helper, mahina 12 tak do. Sab numbers misaal hain.

User 2: Bilal | Kurta Co. (Karachi)

Cheez	Tafseel
Kaam	Mardon ke kurte aur shalwar kameez, pure Pakistan mein COD.
Shuru ki haalat	Mahine ke 300 orders, 28% parcel wapas (RTO), Facebook ads par Rs 3.5 lakh mahina. Bilal ko lagta hai business chal raha hai.
Tech	Theek thaak. Shopify se aa raha hai.
Plan	Growth ($75 mahina, ~Rs 21,000).
Goal	Eid se pehle sales dugni.
Misaal numbers	Order Rs 4,000, kapde ki laagat Rs 1,800, delivery Rs 250, har wapas parcel ka nuqsan Rs 500.

Din 0: Onboarding

User kya karta / dekhta hai	OS kya sochta hai (andar)	OS kya karta hai (backend)
Shopify website ka link deta hai.	*Asli data mil sakta hai, pehle poora hisaab dekho.*	**[Orbit]** 60 products import, tasveerein aur variants (size) ke saath.
Meta ads connect (ads_read), WhatsApp aur courier connect karta hai. Pichle 3 mahine ke orders CSV upload.	*Ads ka kharcha aur orders dono mil gaye. Asli munafa nikal sakta hoon.*	**[Code]** P&L banata hai.
Dashboard par laal box: 'Aapka business har mahine ~Rs 13,000 nuqsan mein hai'.	*Bilal sochta hai munafa hai kyun ke revenue zyada hai. Sach dikhana zaroori hai.*	**[Code]** 216 deliver × 4,000 = 8.64 lakh. Minus laagat, delivery, RTO, ads, Orbit = -13,000 (misaal).

Din 1: Draft plan aur brainstorming

User kya karta / dekhta hai	OS kya sochta hai (andar)	OS kya karta hai (backend)
Plan dekhta hai. Pehli line: 'Sales dugni karne se pehle nuqsan band karna hoga'.	*Rukawat: parcels wapas aur mehnge ads. Sales badhana abhi nuqsan badhayega.*	**[Claude]** 5 strategies. **[Code]** har ek ka munafe par asar.
A: har COD order par WhatsApp confirmation.	*Fake aur gusse wale orders pehle hi ruk jayenge.*	**[Orbit]** COD verification on. **[Jev]** jawab samjhega. 48 ghante bina jawab = cancel.
B: 4 shehron mein pehle order par Rs 300 advance.	*In shehron mein RTO 45%.*	**[Mumkin nahi]** JazzCash/EasyPaisa abhi nahi. Mutabadil: bank transfer screenshot, **[Seller]** confirm.
C: nuqsan wale ad sets band.	*Ads data dikhata hai 3 ad sets ka har order Rs 1,600 mein pad raha hai.*	**[Orbit]** Ads agent: band karne ki list. **[Seller]** approve.
D: 2 kurte par free delivery (bundle).	*Average order bada hoga, delivery ka kharcha bateha.*	**[Orbit]** bundle offer + cart mein 'ek aur add karein' ka note.
E: purane 900 customers ko Eid collection ka pehla din.	*Purana customer = kam RTO, ad ka kharcha zero.*	**[Orbit]** WhatsApp list, sirf opt-in wale.
Bilal: 'Eid aa rahi hai, ads dugne karo'.	*Abhi har ad order par nuqsan. Dugna karna nuqsan dugna.*	**[Jev]** Ads agent ki raaye. **[Claude]**: 'Pehle 3 hafte RTO theek, phir Eid se 3 hafte pehle scale, jab har order munafe mein ho'.
Bilal 'final plan dikhao', phir 'chalao'.		Plan active. Paimane: RTO %, har order ka ad kharcha, munafa.

Hafta 1 se 4: Chalna

User kya karta / dekhta hai	OS kya sochta hai (andar)	OS kya karta hai (backend)
Orders ke saath 'Confirmed / Pending / Cancelled' dikhte hain.		[Orbit] har order par confirmation. [Jev] 'bhai 2 din baad bhejna' ko 'delivery date badlo' samajhta hai.
Kuch customers address adhoora likhte hain, wahin sawal aata hai.	*Adhoora address = parcel wapas.*	[Jev] address ki jaanch. [Orbit] 'landmark likhein' poochta hai.
Har hafte report: RTO 28% → 21% → 16%.		**[Code]** har hafte RTO aur munafa.

Hafta 4: Review aur Eid scale

User kya karta / dekhta hai	OS kya sochta hai (andar)	OS kya karta hai (backend)
OS: 'Ab har order Rs 420 munafe mein hai. Eid se pehle scale ka waqt.'	*Ab ad par paisa lagana munafa laayega.*	**[Code]** naya hisaab. [Claude] scale plan: budget 3.5 → 5 lakh, sirf munafe wale ad sets.
Bilal budget ki haan karta hai.	*Paise ka kaam, approval zaroori.*	[Orbit] Ads agent budget badhata hai. Rule: kisi ad set ka order 1,200 se mehnga ho to band.

Mahina 3 se 12

User kya karta / dekhta hai	OS kya sochta hai (andar)	OS kya karta hai (backend)
Mahina 3: OS naya masla dikhata hai: '70% customers dobara nahi aate'.	*Agli rukawat: repeat.*	[Claude] naya plan: size yaad rakhna, 'aapke size ka naya kurta aaya' message.
Mahina 6: OS: 'medium size ka stock 2 hafte mein khatam hoga'.	*Stock khatam = sale gayi.*	[Orbit] Inventory agent ka alert, **[Code]** bikri ki raftaar se andaza.
Mahina 9: wholesale inquiries aati hain.	*B2B chhota test.*	[Orbit] wholesale page + form. [Jev] inquiry route.

Mahina (misaal)	Orders / RTO	Revenue (deliver)	Laagat + delivery + RTO	Ads + Orbit	Munafa
Pehle	300 / 28%	Rs 8,64,000	Rs 5,06,000	Rs 3,71,000	-Rs 13,000
Mahina 1	310 / 16%	Rs 11,18,000	Rs 6,05,600	Rs 2,91,000	Rs 2,21,400
Mahina 3	420 / 12%	Rs 15,91,000	Rs 8,45,950	Rs 4,21,000	Rs 3,24,050
Mahina 6	600 / 11%	Rs 22,96,200	Rs 12,16,290	Rs 5,21,000	Rs 5,58,910
Mahina 12	850 / 10%	Rs 32,89,500	Rs 17,35,275	Rs 6,71,000	Rs 8,83,225

Mahina 1 mein ads 3.5 se 2.7 lakh (nuqsan wale band). Bundle se average order 4,000 se 4,300. Laagat = revenue ka 45%. Sab misaal.

User 3: Jake | PawLoop (USA)

Cheez	Tafseel
Kaam	Apne design kiye pet accessories (collars, beds, toys). USA mein shipping, Stripe.
Shuru ki haalat	$12,000 mahina revenue, sab kuch Meta ads se. Ads mehnge ho rahe hain.
Tech	Achi samajh.
Plan	Growth, mahina 4 mein Max par upgrade.
Goal	Ads par dependency kam, har customer se zyada kamai (lifetime value).
Misaal numbers	Average order $45, laagat $15, shipping $6, ad ka kharcha per order $18.

Din 0 se 1

User kya karta / dekhta hai	OS kya sochta hai (andar)	OS kya karta hai (backend)
Website link, Stripe, Meta ads, email connect.	*Ads par sab kuch hai. Ek customer kitni dafa aata hai?*	**[Code]** repeat rate 11%, har customer ki 12 mahine ki kamai $52.
Plan ki pehli line: 'Har naye customer par $18 ad ka kharcha, lekin wo sirf $52 kamata hai. Repeat badhana sab se bada lever hai.'	*Rukawat: ek dafa ke customers.*	**[Claude]** 4 strategies.
A: Pet Birthday Club. Checkout par pet ka naam aur birthday.	*Pet owners pet ki birthday manate hain. Emotion + yaad dilane ka mauqa.*	**[Orbit]** Store agent checkout mein 'pet ka naam' aur 'pet ki birthday' fields jodta hai.
B: 'Pet of the Week': customers pet ki photo bhejein, jeetne wale ko free toy.	*Asli photos = content + social proof, ad creative bhi.*	**[Orbit]** submission form (collection), moderation. **[Seller]** jeetne wala chunta hai.
C: treats aur poop bags jaisi cheezon ki refill.	*Subscription behtar hota.*	**[Mumkin nahi]** subscription abhi nahi. Mutabadil: 25 din par email reminder + one-click reorder link.
D: 'Give $10, Get $10' referral.		**[Orbit]** referral system on.
Jake: 'free shipping sab par do'.	*Free shipping sab par = $6 har order se gaya. $60 se upar par do, average order badhega.*	**[Code]** hisaab. **[Claude]** saaf jawab + mutabadil.

Mahina 1 se 3: Chalna aur review

User kya karta / dekhta hai	OS kya sochta hai (andar)	OS kya karta hai (backend)
Emails mein pet ke naam se messages jaate hain.		**[Jev]** kis customer ko kaunsa message (birthday, refill, winback). **[Claude]** likhta hai.
Pet of the Week par har hafte 40 photos.	*Photos ko ads mein use karo (customer ki ijazat se).*	**[Jev]** photo wali submissions check (spam nahi). **[Orbit]** top photos ads ke liye.
Mahina 3 review: repeat 11% → 19%.	*Birthday club sab se acha. Referral kamzor.*	**[Code]** har strategy ka natija. **[Claude]** raaye: referral ka reward badlo.

Mahina 4: Max plan, naye agents

User kya karta / dekhta hai	OS kya sochta hai (andar)	OS kya karta hai (backend)
OS: 'Max plan par main Pet Club ke liye alag agent laga sakta hoon.' Jake upgrade karta hai.	*Birthday club bada ho raha hai, alag agent behtar sambhalega.*	**[Orbit]** Orchestrator 'Pet Club agent' aur 'UGC agent' hire karta hai.
Final plan mein dikhta hai: kis agent ko kya ijazat, kitna budget.	*Budget plan limit se: Pet Club $7, UGC $5 mahina (misaal).*	Pet Club agent: customers ka naam, email, pet ka naam aur birthday, email tool, coupon (1 per customer). Payment data nahi.
Jake approve karta hai.	*UGC agent ko photos chahiye, Pet Club agent ko pet ka naam. Dono baat karein.*	Orchestrator dono agents ki aapas mein baat ki ijazat deta hai.

Mahina 6 se 12

User kya karta / dekhta hai	OS kya sochta hai (andar)	OS kya karta hai (backend)
Pet ki birthday se ek din pehle email: 'Happy birthday Max! Ye rahi gift'.		**[Jev]** kal ki birthdays nikal kar Pet Club agent ko jagata hai.
Mahina 8: OS: 'ads ab revenue ka 40% nahi, 22% hain.'	*Apna audience (email list + UGC) ab kaam kar raha hai.*	**[Code]** channel ke hisaab se revenue.
Mahina 10: naya product 'pet birthday box'.	*Club ne demand dikhayi.*	**[Orbit]** page + sirf club members ko pehle.

Mahina (misaal)	Revenue	Laagat + shipping	Ads	Orbit + AI	Munafa
Pehle	$12,000	$5,600	$4,800	$0	$1,600
Mahina 3	$15,500	$7,200	$4,500	$75	$3,725
Mahina 6	$21,000	$9,800	$5,000	$150	$6,050
Mahina 12	$30,000	$14,000	$6,600	$150	$9,250

Munafa ads se nahi, repeat customers se badha. Sab misaal.

User 4: Ayesha | Zari Jewels (Islamabad → duniya bhar)

Cheez	Tafseel
Kaam	Haath se bani jewelry. Abhi Etsy par bechti hai, apna brand chahti hai.
Shuru ki haalat	Etsy par mahine ke 40 orders, fees aur Etsy ke rules ki pareshani. Apni website par 0 orders.
Plan	Growth.
Goal	Apni website se 60% sales, Etsy par dependency kam.
Misaal numbers	Average order $38, laagat $9, international shipping $8, Etsy fees ~15%.

Din 0 se 1

User kya karta / dekhta hai	OS kya sochta hai (andar)	OS kya karta hai (backend)
Etsy shop ka link deti hai.	*Products aur reviews Etsy par hain.*	**[Orbit]** products aur tasveerein import. Etsy reviews ka **[Mumkin nahi]** seedha import, **[Seller]** screenshots de sakti hai.
Orbit Design mein store: 'minimal, gold, handmade feel'.		**[Orbit]** store + 'engraving ka naam' checkout field.
Ayesha: 'Etsy ke purane buyers ko message karo ke website se lein'.	*Etsy ke rules buyers ko bahar bhejne se rokte hain. Account band ho sakta hai.*	**[Claude]** saaf 'nahi' + wajah. Mutabadil: apna audience banao.
A: Pinterest + Instagram par 'gift guides' (Eid, Valentine, Mother's Day).	*Jewelry = gift. Log gift dhoondhte hain.*	**[Orbit]** gift guide pages Orbit Design se. Pin aur post ka text. **[Seller]** Pinterest par lagati hai.
B: naam engrave karwane ki personalization, sirf website par.	*Etsy par jo nahi milta wo website par do.*	**[Orbit]** engraving option + preview text.
C: har website order ke saath 'apni pehni hui photo bhejo, 15% off'.	*UGC + repeat.*	**[Orbit]** card design, coupon.
D: Mother's Day se 5 hafte pehle pre-order.	*Handmade hai, time chahiye.*	**[Code]** capacity ke hisaab se pre-order ki had.

Mahina 1 se 12

User kya karta / dekhta hai	OS kya sochta hai (andar)	OS kya karta hai (backend)
Mahina 1: website par 8 orders.	*Gift guides se aa rahe hain.*	**[Code]** source ke hisaab se orders.
Mahina 3: 'engraving' wale orders 40%.	*Personalization jeet gayi. Isay aage rakho.*	**[Claude]** store ka hero badalne ka mashwara. **[Seller]** approve.
Mahina 5: international customer ka sawal chatbot par: 'UK mein kitne din?'		**[Jev]** 'shipping' intent → seedha shipping zones se jawab.
Mahina 12: website 62%, Etsy 38%.	*Etsy band nahi karna, wo naye log laata hai.*	**[Claude]** raaye: Etsy ko 'discovery' ke liye rakho.

Mahina (misaal)	Etsy orders	Website orders	Revenue	Munafa
Pehle	40	0	$1,520	$612
Mahina 3	42	25	$2,680	$1,214
Mahina 6	45	55	$4,000	$1,955

Mahina (misaal)	Etsy orders	Website orders	Revenue	Munafa
Mahina 12	50	82	$5,280	$2,661

Engraving ke baad average order $40. Munafa = revenue minus laagat, shipping, Etsy fees (15%) aur Orbit ($75). Website par Etsy fees nahi, is liye har website order zyada munafa deta hai. Sab misaal.

User 5: Hamza | Techzy (Pakistan, bada business)

Cheez	Tafseel
Kaam	Mobile accessories aur gadgets, 400 products, 3 logon ki team.
Shuru ki haalat	Mahine ke 5,000 orders, revenue Rs 1.2 crore, lekin munafa sirf ~4%.
Plan	Max (agents hire/fire, team access).
Goal	Munafa 4% se 12%.

Din 0 se 1: Sach ka hisaab

User kya karta / dekhta hai	OS kya sochta hai (andar)	OS kya karta hai (backend)
Saara data connect: website, orders history, courier, ads, stock.	*Bada business, masla shayad kuch products mein chhupa hai.*	**[Code]** 400 products ka alag alag asli munafa.
Dashboard: '62 products har order par nuqsan de rahe hain. 30 products 70% munafa laate hain.'	*Sab ko ek jaisa bechna galti hai.*	**[Code]** product-wise P&L, **[Claude]** khulasa.
Hamza: 'nuqsan wale band kar do'.	*Kuch nuqsan wale products doosre products ke saath bikte hain (cable ke saath charger). Seedha band karna nuqsan de sakta hai.*	**[Code]** 'saath bikne wale' check. **[Claude]** raaye: 40 band, 22 ki price ya bundle badlo.

Din 1: Plan aur hire

User kya karta / dekhta hai	OS kya sochta hai (andar)	OS kya karta hai (backend)
OS plan: A) product-wise munafa theek karna, B) courier ka shehar-wise chunaav, C) wholesale, D) loyalty points.	*4 alag kaam, alag agents behtar.*	**[Orbit]** Orchestrator 3 agents hire karta hai: Margin agent, Courier-ops agent, Wholesale agent.
Final plan mein har agent ki ijazat aur budget.	*Budget plan limit se baanta.*	Margin agent: products, laagat, bikri parh sakta hai. Price badalne ki sirf suggestion, badlav Hamza ki haan se.
Hamza apni team ke 2 logon ko access deta hai: ek orders, ek products.	*Team har cheez na dekhe.*	**[Orbit]** team roles (ye feature abhi adhoora, banana hai).

Mahina 1 se 6

User kya karta / dekhta hai	OS kya sochta hai (andar)	OS kya karta hai (backend)
Margin agent har hafte list: 'in 8 products ki price Rs 50 badhao'.		**[Code]** hisaab. **[Seller]** approve ya reject.
Courier-ops agent: 'Quetta mein courier A ka RTO 35%, courier B ka 18%.'	*Shehar ke hisaab se courier chuno.*	**[Code]** courier data. Courier API ka seedha badlav **[Mumkin nahi]** abhi (sirf ek provider), **[Seller]** courier settings badalta hai.
Wholesale inquiry: 'mujhe 500 cables chahiye'.		**[Jev]** 'wholesale' samajhta hai → Wholesale agent → price list + seller ko alert.
Mahina 4: loyalty points ka natija kamzor.	*Log points samajhte nahi. Band karo ya aasaan karo?*	**[Claude]** seller ke saath behes. Faisla: 'har 5th order free delivery' (seedha).

Mahina 6 se 12

User kya karta / dekhta hai	OS kya sochta hai (andar)	OS kya karta hai (backend)
OS: 'Margin 4% se 10%. Ab agla level: apna brand ke products.'	*Resale mein margin ki had hai. Private label zyada munafa.*	**[Claude]** 3 best-selling cheezon ka apna brand, supplier dhoondhna **[Seller]**.
Wholesale agent ka kaam kam hai, OS fire ka mashwara deta hai.	*Budget bachao.*	Hamza ki haan se agent band, ijazatein khatam.

Mahina (misaal)	Orders	Revenue	Munafa %	Munafa
Pehle	5,000	Rs 1,20,00,000	4%	Rs 4,80,000
Mahina 3	4,700	Rs 1,18,00,000	8%	Rs 9,44,000
Mahina 6	5,200	Rs 1,32,00,000	10%	Rs 13,20,000
Mahina 12	6,000	Rs 1,60,00,000	12%	Rs 19,20,000

Mahina 3 mein orders thode kam hue (nuqsan wale products band) lekin munafa dugna. Sab misaal.

Khulasa: 5 users, ek OS

User	Pehli rukawat	OS ne kya kiya	Agli rukawat
Sana (bakery)	Koi jaanta nahi	Friday Drop (scarcity), offices, occasions	Capacity → helper, naye products
Bilal (kurte)	Chhupa hua nuqsan (RTO + ads)	COD confirm, advance, ads cut, bundle	Repeat, stock
Jake (pets)	Ads par dependency	Pet Birthday Club, UGC, refill	Naya product club ke liye
Ayesha (jewelry)	Etsy par dependency	Gift guides, engraving, pre-order	Apna audience bada karna
Hamza (gadgets)	Patla munafa	Product-wise munafa, courier, wholesale	Apna brand (private label)

Sab mein ek jaisa: OS pehle asli hisaab dekhta hai, asal rukawat pehchanta hai, munafe ki jaanch karta hai, seller ke saath behes karta hai (galat baat ko galat kehta hai), approval par kaam karta hai, naapta hai, dobara baat karta hai, aur rukawat hal hone par agli rukawat par jata hai.

Is ke liye jo banana baaki hai: Strategy Lab (plan as data), approval flow, chat se kaam, feasibility check, har strategy ka naapna, agents as data + hire/fire + ijazatein, Jev layer, product-wise P&L, team roles, subscriptions, JazzCash/EasyPaisa, aur Meta App Review.
