Orbit AI Growth OS

System kaise kaam karega: master flow + 5 business scenarios, har phase ke micro steps

Ye document us naye Orbit ka tasawwur hai jo humne brainstorming mein tay kiya: seller ke saath milkar plan, alag alag creative strategies, test, naapna, dobara baat, aur jo chale use scale karna. Competitors sirf knowledge ke liye hain, plan ki buniyad seller ka apna business hai.

Zaroori: *saare numbers (orders, %, budget) sirf* **misaal** *ke taur par hain, taake flow samajh aaye. Ye koi prediction ya guarantee nahi. Asal nateeje product, seller ki mehnat aur connected channels par depend karenge.*

Nishan	Matlab
[Orbit]	Orbit khud karta hai (agent + tool)
[Seller]	Seller ko khud karna hai (insaani kaam ya approval)
[Jev]	Jev faisla karta hai (chunna, route karna, haan/nahi, score)
[Claude]	Claude sochta ya likhta hai (plan, message, copy, baat-cheet)
[Code]	Seedha code: numbers, hisaab, database (koi AI nahi)
[Mumkin nahi]	Orbit abhi nahi kar sakta, plan banate waqt hi seller ko bataya jata hai

Hissa 1: System ke hisse

Hissa	Kaam
Orchestrator	Poore business ka 'CEO' agent. Plan banata hai, seller se behes karta hai, agents se mashwara karta hai, ijazatein deta hai, budget baantta hai.
Template agents	Bane bane agents: Content, SEO, Ads, Pricing, Inventory, Retention, Chatbot, Competitor Intel, QA, Store agent. Har plan par dastiyab.
Hired agents (sirf Max plan)	Orchestrator plan ke mutabiq naye agent banata hai (jaise Loyalty, Quiz, Win-back) aur kaam khatam hone par band kar deta hai.
Store agent	Seller ke apne Orbit store ka maalik agent: pages, checkout fields, coupons, collections. Badlav Orbit ke data layers ke zariye, seedha database nahi.
Harness (tools)	Asli kaam karne wale auzaar: WhatsApp bhejna, coupon banana, post karna, ad banana (PAUSED), page banana, data parhna. Har tool khud ijazat check karta hai.
Ijazatein (grants)	Har agent ki list: kaunsa data, kaunse tools, kitna budget, din ki had. Orchestrator deta hai, seller approval par dekhta hai, kaam khatam to ijazat khatam.
Jev	Tez aur sasta faisla-saaz: kaunsa tool, kaunsi skill, kaunsa context, kaunsa agent jage, seller ki haan chahiye ya nahi.
Claude	Sochna aur likhna: strategies, messages, captions, pages, seller se baat-cheet.
Strategy Lab	Har strategy ek record: kis ke liye, kya karna, kab tak, kamyabi ka paimana, natija, faisla.
Memory	Plan, strategies ke natije, seller ki pasand/napasand, kya chala kya nahi. Sab stores ki seekh bhi (naam chhupa kar).

Hissa 2: Master flow (har business par)

Ye 10 phases har business par chalte hain. Scenarios mein inhi phases ko business ke hisaab se bhara gaya hai.

Phase 0: Onboarding

1. **[Seller]** signup karta hai aur apni website ka link deta hai (ya likhta hai 'website nahi hai').
2. **[Orbit]** website scrape karta hai: naam, kya bechte hain, Instagram, products. **[Jev]** bot-check page pehchanta hai, **[Claude]** sirf asli text se details nikalta hai.
3. **[Orbit]** products import karta hai (naam, price, tasveer). **[Seller]** cost price bharta hai taake margin ka hisaab ho sake.
4. **[Seller]** channels connect karta hai: Facebook/Instagram (Meta), WhatsApp, payment (COD/Stripe). Jo connect nahi, Orbit yaad rakhta hai ke wo tools abhi band hain.
5. **[Seller]** apna goal aur haalat batata hai: kitne orders chahiye, ads ka budget hai ya nahi, kitna waqt de sakta hai, kya khud kar sakta hai (packaging, video wagera).
6. **[Seller]** business model chunta hai: apne products, dropshipping, trending ya mixed.

Phase 1: Business samajhna

7. **[Code]** asli numbers nikalta hai: orders, revenue, visitors, conversion, repeat customers, har product ka margin, returns. (AI kabhi number nahi banata.)
8. **[Orbit]** Competitor Intel reference ke liye scan karta hai: best-seller, price, content, ads. Ye sirf knowledge hai, plan ki buniyad nahi.

9. **[Jev]** saare data mein se wo hisse chunta hai jo is business ke liye kaam ke hain, taake **[Claude]** ko chhota aur saaf context mile.
10. **[Claude]** Orchestrator business ki 'haalat' likhta hai: taqat, kamzori, sab se bada rukawat (jaise 'traffic zero hai' ya 'returns zyada hain').

Phase 2: Draft plan

11. **[Claude]** Orchestrator 3 se 6 alag alag strategies sochta hai. Har ek alag qism ki: word-of-mouth, loyalty, offer, content, partnership, ads, operations.
12. Har strategy ka card banta hai: kis ke liye (audience), kya karna hai (kadam), kitne din, kamyabi ka paimana, kharcha, kaunsa data aur tool chahiye.
13. Plan ka waqt fixed nahi: koi strategy 7 din ki, koi 45 din ki, koi hamesha chalne wali.
14. **[Orbit]** har kadam ka feasibility check: 'Orbit karega', 'Seller karega', ya 'Mumkin nahi'. Jo mumkin nahi, us ke saath wajah aur mutabadil likha jata hai.
15. **[Orbit]** agar koi strategy data mangti hai jo store mein nahi (jaise date of birth), to plan mein likha jata hai: 'Store agent ye field jodega'.
16. **[Code]** budget ka hisaab: plan ki usage limit mein se har strategy aur agent ka hissa (Orchestrator khud baantta hai, seller se har dafa nahi poochta).

Phase 3: Seller ke saath brainstorming

17. **[Orbit]** seller ko plan dikhata hai aur chat khulti hai.
18. **[Seller]** sawal karta hai, idea deta hai, ya kisi strategy par etiraaz karta hai.
19. **[Jev]** tay karta hai ke is sawal par kis agent ki raaye chahiye (Pricing, Ads, Content...). Sirf zaroorat ho to meeting hoti hai.
20. **[Claude]** wo agents chat mein seller ke saamne apni raaye dete hain. Orchestrator unki baat jod kar jawab deta hai.
21. Agar seller ka idea galat ho to Orbit saaf kehta hai 'ye kaam nahi karega', wajah aur data ke saath, aur behtar mutabadil deta hai. Har baat par haan nahi.
22. Har tabdeeli plan ke card mein foran nazar aati hai. Ye silsila tab tak chalta hai jab tak seller mutmain na ho.

Phase 4: Approval

23. **[Seller]** do mein se ek kehta hai: 'haan, chalao' ya 'pehle final plan dikhao, phir chalana'.
24. Final plan mein saaf likha hota hai: kaunse agents chalenge, un ko kya ijazatein milengi, kitna budget, kaunse kaam seller ke zimme hain.
25. Approval ke baghair koi strategy nahi chalti.

Phase 5: Setup

26. **[Orbit]** zaroori agents taiyar: template agents on hote hain. Max plan par Orchestrator naye agents hire karta hai.
27. **[Orbit]** har agent ko ijazatein milti hain: sirf zaroori data, sirf zaroori tools, budget, din ki had.
28. **[Orbit]** Store agent Orchestrator ki ijazat se store badalta hai: naya checkout field, coupon, landing page, form. Sab wapas lene layak.
29. **[Orbit]** har agent ko skill milti hai: data ka istemal kaise karna hai, kya likhna hai, kya nahi karna.
30. Agents ek doosre se seedha baat kar sakte hain, lekin Orchestrator ki ijazat se.

Phase 6: Chalana

31. [Orbit] agents apna kaam karte hain: messages, posts, coupons, pages.
32. Har event (naya order, delivery, review, stock kam, birthday kal) par [Jev] tay karta hai kaunsa agent jage, ya koi na jage.
33. Har kaam se pehle [Jev] tools aur context chunta hai. [Claude] sirf zaroori cheezon ke saath likhta hai.
34. Paise wale kaam (ads ka kharcha, price badalna, refund) hamesha seller ki 'haan' se.
35. Har kaam ka record (log) banta hai: kis agent ne kya dekha, kya kiya.

Phase 7: Naapna

36. [Code] har strategy ka paimana apne aap ginta hai: coupon code se orders, posts, dobara khareedari, return rate.
37. [Orbit] dashboard par har strategy ka haal: chal rahi hai, ruki hui, ya kamzor.

Phase 8: Dobara baat-cheet

38. Tay waqt par, ya koi strategy kamzor ho to, [Orbit] seller ko bulata hai.
39. [Claude] Orchestrator data dikhata hai aur apni raaye deta hai: kya dohrana hai, kya band karna hai, kya badalna hai.
40. Orbit khud se strategy nahi badalta. Seller ke saath behes, phir seller ki haan, phir tabdeeli.

Phase 9: Seekhna aur scale

41. Jo chala: dohrao aur bada karo (zyada budget, zyada log, naye shehar).
42. Jo nahi chala: band. Uska agent fire, ijazatein khatam.
43. Nayi strategies test ke liye aati rehti hain. Kaam dohrana bhi theek hai agar wo chal raha ho.
44. [Jev] tay karta hai kya memory mein rakhna hai. Kamyab strategies doosre milte julte stores ko suggest hoti hain (data naam chhupa kar).

Kaun kya karta hai (khulasa)

Kaam	Kaun
Sochna, likhna, seller se baat	[Claude]
Kaunsa tool / skill / context / agent, haan-nahi gate	[Jev]
Numbers, hisaab, metrics, database	[Code]
Asli kaam (WhatsApp, coupon, post, page)	[Orbit] tools, ijazat ke saath
Approval, paise wale faisle, insaani kaam	[Seller]

Hissa 3: 5 business scenarios

Har scenario mein wahi 10 phases hain, lekin business ke hisaab se kadam alag hain. Numbers sirf misaal hain.

Scenario 1: Noor Candles (Karachi) | zero sales se shuru

- **Haalat:** ghar par candles, 6 products, Instagram par 300 followers, website nahi, 0 orders, ads ka budget nahi.
- **Plan:** Growth (hire/fire agents nahi, template agents istemal honge).
- **Goal (seller ka):** pehle 30 orders.

Phase 0 to 1: Onboarding aur samajhna

1. **[Seller]** signup, 'website nahi hai' chunta hai. **[Orbit]** Orbit Design kholta hai. **[Seller]** prompt deta hai, store design karta hai aur publish karta hai.
2. **[Seller]** 6 products, price aur cost price daalta hai. Instagram aur WhatsApp connect karta hai. Payment: COD.
3. **[Seller]** batata hai: 'har roz 2 ghante de sakta hoon, Reels bana sakta hoon, packaging khud karta hoon.'
4. **[Code]** 0 orders, 0 visitors, margin har candle par ~55% (misaal).
5. **[Orbit]** competitor scan reference ke liye. **[Jev]** faisla karta hai ke itne naye business ke liye competitors ka data kam kaam ka hai, sirf content style ka note rakha jata hai.
6. **[Claude]** haalat: 'Sab se bada masla: koi jaanta nahi. Reviews aur social proof zero hain.'

Phase 2: Draft plan (4 strategies)

7. **A. Pehle 20 (network):** seller apne WhatsApp contacts ko personal message bheje. **[Claude]** message likhta hai, **[Orbit]** 15% ka code LAUNCH15 banata hai. Bhejna **[Seller]** karega (apne number se). Paimana: LAUNCH15 wale orders. 10 din.
8. **B. Photo card loop:** har parcel mein card: 'photo post karo, tag karo, agli candle 20% off'. Card ka design **[Orbit]**, chhapwana **[Seller]**. Paimana: posts aur repeat orders. Hamesha chalne wali.
9. **C. Khushboo ka naam contest:** Instagram par naye scent ka naam followers rakhein, jeetne wale ko free candle. Post **[Orbit]**, comments padhna Instagram API se **[Mumkin nahi]** abhi (App Review baaki), is liye jeetne wala **[Seller]** chunega. 7 din.
10. **D. 3 local creators:** home-decor ke chhote creators ko gift candle, woh story karein. List aur DM ka draft **[Orbit]**, bhejna **[Seller]**. Paimana: creator code wale orders.
11. **[Orbit]** checkout mein optional field 'Instagram handle' jodne ka kadam plan mein (tag karne ke liye).

Phase 3: Brainstorming

Seller: Ye sab chhoro, seedha 5000 ke ads chalao.

Orbit: Abhi nahi. Store par ek bhi review nahi, aur ad ke paas seekhne ko koi data nahi. Paisa zyada tar zaya hoga. Pehle 15 reviews aur customers ki asli photos, phir unhi photos se chhota ad test. Ads agent se bhi poocha, uski bhi yahi raaye hai.

Seller: Card ke saath free mini candle mehngi padegi.

Orbit: Pricing agent ne hisaab kiya: mini candle ki cost Rs 120 (misaal). Ye sirf Rs 2,000 se upar ke orders par do, margin phir bhi 45% se upar rahega.

12. **[Seller]** contest ko 5 din ka kar deta hai. Card wali shart manzoor.
13. **[Seller]** 'final plan dikhao'. **[Orbit]** dikhata hai: 4 strategies, kaunsa kaam kaun karega, AI ka andazan kharcha mahine ka ~$4 (misaal). **[Seller]** 'haan, chalao'.

Phase 5 to 6: Setup aur chalana

14. **[Orbit]** Store agent: coupon LAUNCH15 aur REPEAT20 banata hai, checkout mein 'Instagram handle' field jodta hai.
15. **[Orbit]** Content agent: 12 captions aur 8 Reel ideas (candle banne ka process, packing ASMR).
16. **[Seller]** 40 contacts ko message bhejta hai.
17. Order aata hai. **[Jev]** WhatsApp par customer ke 'ji bhej dein' ko 'confirm' samajhta hai. Order confirm.
18. Delivery ke 3 din baad **[Orbit]** Retention agent WhatsApp bhejta hai: 'photo bhejo, agli candle 20% off'.
19. **[Seller]** creators ko DM karta hai. 2 haan karte hain, **[Orbit]** un ke codes banata hai.

Phase 7 to 8: Naapna aur dobara baat (din 14)

20. **[Code]** A: 14 orders, B: 6 posts + 3 repeat, C: 9 entries, 1 order, D: 5 orders (sab misaal).
21. **[Claude]** Orchestrator: 'A aur B chal gaye. C ne orders nahi diye, band karein. D achha hai, 3 creators aur.' Seller se baat, seller maan jata hai.

Phase 9: Scale

22. 18 reviews ho gaye. **[Orbit]** Ads agent customers ki asli photos se ad banata hai (PAUSED). **[Seller]** Rs 500 roz ki haan karta hai.
23. **[Code]** 7 din mein ad se orders ginta hai. Jeetne wala ad chalta hai, baaki band.
24. Memory: 'candles jaise gift products mein photo card loop kaam karta hai.' Ye seekh doosre gift stores ko suggest ho sakti hai.

Scenario 2: Rang Studio (Lahore) | kapde, COD returns ka masla

- **Haalat:** 150 orders mahine ke (misaal), sab COD, 30% parcels wapas (RTO).
- **Plan:** Growth.
- **Goal:** returns kam karna, munafa bachana.

Phase 1: Samajhna

1. **[Code]** shehar ke hisaab se returns: 3 shehron mein 45%, baaki mein 18% (misaal). Pehli dafa ke customers mein returns zyada.
2. **[Code]** fraud screen: 12 numbers baar baar cancel karte hain.
3. **[Claude]** haalat: 'Sales ka masla nahi, jo sales hain wo ghar tak pahunch kar wapas aa rahi hain.'

Phase 2: Draft plan

4. **A. WhatsApp confirmation:** har COD order par confirm message. **[Jev]** jawab samjhe: confirm, cancel, address badlo, sawal, samajh nahi aaya. 48 ghante tak jawab nahi to auto-cancel aur stock wapas.
5. **B. Address check:** checkout par **[Jev]** dekhe ke address mukammal hai (gali, area, landmark). Adhoora ho to customer se wahin pooch lo.
6. **C. Advance par free delivery:** pehli dafa ke customer Rs 200 advance dein to delivery free. JazzCash/EasyPaisa ka integration **[Mumkin nahi]** abhi. Mutabadil: bank transfer ka screenshot WhatsApp par, **[Seller]** confirm kare.
7. **D. Blocklist:** 12 numbers blocklist mein. Sirf seller ki haan se.
8. **E. Loyal customers ko pehle access:** jin ke 2+ orders deliver hue, un ko nayi collection 2 din pehle.

Phase 3: Brainstorming

Seller: Mujhe COD hi band kar dena hai, masla khatam.

Orbit: Is se returns to khatam honge, lekin aapke 80% customers COD se khareedte hain. Orders bhi aadhe se kam ho sakte hain. Behtar: sirf un 3 shehron mein pehle order par advance, baaki jagah confirmation ke saath COD.

Seller: Theek hai, lekin blocklist mein 12 nahi, sirf 8 daalo, 4 mere purane customer hain.

9. **[Seller]** 'haan, chalao'.

Phase 5 to 6: Setup aur chalana

10. **[Orbit]** Store agent: COD verification on, 3 shehron ke liye advance wala option, checkout par 'landmark' field.
11. **[Orbit]** Orders agent ko ijazat: orders parhna, WhatsApp bhejna, order confirm/cancel karna. Payment data nahi.
12. Order aata hai. **[Orbit]** WhatsApp: 'Order confirm karein?'. Jawab: 'address badalna hai, gali 4 nahi 6'. **[Jev]** 'address badlo' samajhta hai, **[Orbit]** seller ko alert.
13. 48 ghante tak jawab nahi. **[Orbit]** order cancel, stock wapas, seller ko report.

Phase 7 to 9: Naapna, baat, scale

14. **[Code]** 30 din baad RTO 30% se 14% (misaal). Bacha hua paisa ginti mein.
15. **[Claude]** Orchestrator: 'Advance wali strategy ne us shehar mein orders 20% kam kiye lekin munafa zyada. Rakhein.' Seller maan jata hai.
16. Scale: bacha paisa naye shehar ke ads mein (**[Seller]** ki haan se). Loyal customers ki early access se nayi collection ka pehla din bada.

Scenario 3: GadgetNest (USA) | dropshipping, ads par chalta

- **Haalat:** 25 products, Stripe, ads budget $30 roz, kuch sales lekin ad par nuqsan.
- **Plan:** Growth.
- **Goal:** munafe wale ads.

Phase 1 to 2: Samajhna aur draft

1. **[Code]** har product ka margin (supplier cost + shipping). Sirf 4 products ka margin 40% se upar.
2. **[Orbit]** Meta se ads ka data (ads_read): kaunse ads par kitna kharcha, kitne orders.
3. **A. 2 product, 3 angle:** 2 sab se ache margin wale products. Har ek ke 3 alag ad angles: 'gift for dad', 'problem solve', 'unboxing'.
4. **B. Har angle ka alag landing page:** Orbit Design se **[Orbit]**, har page par ek hi product aur ek hi baat.
5. **C. Bundle + free shipping:** 2 lo to free shipping. Pricing agent margin check karta hai.
6. **D. Kill rule:** ad 3 din mein $25 kharch kare aur 0 order to band. Ye rule plan mein likha jata hai.
7. Supplier ki delivery der se ho to **[Mumkin nahi]**: Orbit supplier ko control nahi karta. Orbit sirf customer ko tracking update bhej sakta hai.

Phase 3 to 4: Brainstorming aur approval

Seller: Price sab se kam rakho, sasta bikega.

Orbit: Sab se sasta hone par margin 12% bachta hai, ad ka kharcha nikal hi nahi payega. Bundle aur free shipping se average order bada hoga aur margin bachega.

8. **[Seller]** budget ki haan: $30 roz, auto-scale ka rule: jeetne wala ad har 3 din baad 20% zyada, max $80 roz.

Phase 5 to 6: Setup aur chalana

9. **[Orbit]** Store agent 3 landing pages banata hai. Har link par UTM taake order ka source pata chale.
10. **[Orbit]** Ads agent 6 ads banata hai, PAUSED. **[Seller]** 'chalao' dabata hai.
11. Har roz **[Code]** kharcha aur orders milata hai. **[Jev]** kill rule check karta hai. Rule toota to **[Orbit]** ad band karta hai (ye pehle se approved rule tha).
12. Customer ka sawal chatbot par: 'kab pahunchega?'. **[Jev]** isay 'order tracking' samajhta hai, database se jawab, Claude ki zaroorat nahi.

Phase 7 to 9: Naapna, baat, scale

13. **[Code]** 'gift for dad' angle jeeta, baaki 4 ads band.
14. **[Claude]** Orchestrator: 'Father's Day 3 hafte baad hai. Isi angle par chalo, aur ek naya angle test karo.' Seller ke saath baat.
15. Scale: jeetne wala ad rule ke mutabiq badhta hai, naye angle hamesha test mein.

Scenario 4: Shehad Ghar | organic shehad, dobara khareedari wala product

- **Haalat:** 60 orders mahine ke (misaal), zyada tar ek dafa khareedte hain.
- **Plan:** Growth.
- **Goal:** har mahine pakki aamdani.

Phase 1 to 2

1. **[Code]** ek jar ~30 din mein khatam (orders ke waqfe se andaza). Sirf 15% dobara khareedte hain.
2. **A. Khatam hone se pehle yaad dilana:** din 25 par WhatsApp: 'shehad khatam hone wala hai? ek click mein dobara order'.
3. **B. Monthly subscription:** Orbit mein subscription ka feature **[Mumkin nahi]** abhi. Mutabadil: strategy A + 'har mahine yaad dilao' ka option. Plan mein saaf likha jata hai.
4. **C. 3 dost laao, 1 jar free:** referral system pehle se hai. **[Orbit]** referral link banata hai.
5. **D. Sardiyon ka family gift box:** packaging **[Seller]**, page aur offer **[Orbit]**.
6. **E. Corporate gifting:** offices ke liye alag page aur inquiry form. Form ka backend Orbit Code jodta hai.

Phase 3 to 6

Seller: Har customer ko har hafte message karo, zyada bikega.

Orbit: Har hafte message log block kar dete hain aur WhatsApp number flag ho sakta hai. Sirf zaroorat par: din 25 par ek yaad dahani, bas.

7. **[Seller]** 'haan, chalao'.
8. **[Orbit]** Retention agent: har order ki date se din 25 ka reminder, sirf un ko jo WhatsApp par raazi hain.
9. **[Orbit]** Store agent: gift box page aur corporate inquiry form. Form ki entries dashboard par.
10. Corporate inquiry aati hai. **[Jev]** isay 'wholesale/corporate' samajhta hai, **[Orbit]** seller ko foran alert.

Phase 7 to 9

11. **[Code]** 60 din baad dobara khareedne wale 15% se 32% (misaal). Referral se 18 naye customers.
12. **[Claude]** Orchestrator: 'Subscription ki maang dikh rahi hai, 40 customers har mahine reminder se khareed rahe hain. Subscription feature banwana faida dega.' Seller ke saath faisla.
13. Scale: corporate orders (Eid, naya saal), gift box har season.

Scenario 5: Glow Lab | skincare, sales ruki hui (Max plan)

- **Haalat:** 2,000 orders mahine ke (misaal), 6 mahine se flat. 70% customers ek hi dafa khareedte hain.
- **Plan:** Max, is liye Orchestrator naye agents hire kar sakta hai. Usage limit $50 mahina (misaal).
- **Goal:** sales dobara badhana.

Phase 1 to 2

1. **[Code]** 70% ek dafa, jo 2 dafa khareedte hain wo aam taur par 5+ dafa khareedte hain.
2. **A. Skin quiz:** 5 sawal, phir personalized routine aur products. Naya agent: **Quiz agent**.
3. **B. Birthday surprise:** birthday par chhota gift aur card par naam. Naya agent: **Loyalty agent**. Checkout mein date of birth ka field nahi, is liye Store agent jodega.
4. **C. Refill reminder:** 60 din par product khatam hone se pehle. Template agent: Retention.
5. **D. Win-back:** 90 din se na aane wale customers ko personal offer. Naya agent: **Win-back agent**.
6. **[Code]** budget: Quiz agent $8, Loyalty agent $6, Win-back agent $5 mahina (misaal), sab $50 ki limit ke andar. Orchestrator khud baantta hai.

Phase 3 to 4: Brainstorming

Seller: Mujhe naya serum launch karna hai, sales barh jayengi.

Orbit: Naya product naye customer ko bechna mehnga hai. Aapke 1,400 purane customer dobara nahi aaye, pehle unhein wapas lao. Serum launch 6 hafte baad, aur pehle loyal customers ko.

Seller: Theek hai, lekin birthday gift mein naam chhapwana mujh se nahi hoga.

Orbit: To gift ke saath handwritten card nahi, printed card jis par naam ho. Card design aur print file Orbit banayega, aapko sirf print karna hai.

7. **[Seller]** 'final plan dikhao'. **[Orbit]** 3 naye agents, un ki ijazatein, budget aur store ke badlav dikhata hai. **[Seller]** 'haan, chalao'.

Phase 5: Setup (agents hire, ijazatein, store badlav)

8. **[Orbit]** Orchestrator Quiz, Loyalty aur Win-back agents banata hai.
9. Loyalty agent ki ijazatein: customers ka naam, phone, date of birth, aakhri order. WhatsApp bhejna. Coupon banana, har customer ka ek. Payment data nahi. Din mein max 200 messages.
10. **[Orbit]** Store agent Orchestrator ki ijazat se checkout aur account profile mein 'date of birth' (optional) jodta hai. Orbit Design se quiz page banta hai, jawab ek collection mein save hote hain.
11. Quiz agent jo skin type seekhta hai, wo Loyalty agent ko chahiye. Orchestrator dono ki baat-cheet ki ijazat deta hai.
12. Har agent ko skill: data kaise use karna hai, message ka lehja, kya kabhi nahi kehna (medical daawe nahi).

Phase 6: Chalana

13. Customer quiz karta hai. **[Claude]** routine likhta hai, **[Orbit]** products recommend karta hai. Jawab collection mein.
14. Kal kisi ki birthday hai. **[Jev]** Loyalty agent ko jagata hai. **[Jev]** sirf zaroori context chunta hai (naam, skin type, pichle products). **[Claude]** message likhta hai. **[Orbit]** gift coupon aur card ki print file. **[Seller]** gift pack karta hai.
15. 90 din se na aane wala customer. **[Jev]** Win-back agent jagata hai. **[Claude]** personal message, us ke skin type ke hisaab se.
16. Har kaam ka log. Paise wala koi kaam nahi, is liye approval ki zaroorat nahi. Agar Win-back agent 30% se bada discount dena chahe to seller ki haan chahiye.

Phase 7 to 9: Naapna, baat, scale

17. **[Code]** 60 din: dobara khareedne wale 30% se 41% (misaal). Quiz se aane walon ka average order 25% bada. Win-back ka asar kam.
18. **[Claude]** Orchestrator: 'Win-back kaam nahi kar raha, agent band karein ya offer badlein?' Seller ke saath behes. Faisla: offer badlo, 30 din aur.
19. 30 din baad bhi kamzor. Seller ki haan se Win-back agent fire, us ki ijazatein khatam.
20. Scale: naya serum pehle quiz wale aur loyal customers ko. Memory: 'skincare mein quiz + refill reminder chalta hai' doosre skincare stores ko suggest.

Hissa 4: Abhi kya bana hai, kya banana hai

Cheez	Abhi	Banana hai
Orchestrator chat + agents se meeting	Hai (salah deta hai)	Chat se plan badalna aur chalana
Plan	Hafte ka text	Strategy Lab: har strategy ek record (kadam, status, paimana, natija)
Approval gate	Nahi	'Haan chalao' / 'final dikhao' ka flow
Feasibility check	Nahi	Har kadam: Orbit / Seller / Mumkin nahi
Agents	10 fixed, code mein	Agents as data, hire/fire (Max plan), budget
Ijazatein	Nahi	Grants: data, tools, had, log
Agent se agent baat	Sirf meeting mein	Orchestrator ki ijazat se seedhi baat
Jev layer	Nahi	Tool, skill, context, event routing, gates
Strategy ka natija	Sirf hero A/B test	Har strategy ka automatic paimana
Store badlav	Orbit Design/Code, custom checkout fields	Store agent jo ye sab tools se kare
Channels	Code bana hai	Meta App Review, WhatsApp, Stripe ka asli test
Pakistan payments	Nahi	JazzCash / EasyPaisa (agar chahiye)
Subscriptions	Nahi	Subscription feature (Scenario 4 jaise)

Asoolon ka khulasa: buniyad seller ka apna business hai, competitors sirf knowledge. Plan ka waqt fixed nahi. Alag alag strategies, test, naapo, seller ke saath dobara baat, phir badlo. AI sach bolta hai, har baat par haan nahi. Jo Orbit nahi kar sakta, wo plan banate waqt hi bataya jata hai. Paise wale kaam hamesha seller ki haan se.
